

The grand jury impaneled by Judge Wallace of the Superior Court, San Francisco, continues to be a subject of comment. All the ringmen and hoodlums in the city and State and their newspaper organs denounce it as an illegal body, though the Supreme Court says it is a grand jury in fact and its subpoenas must be respected. It was charged by the hoodlums that it was a Democratic body, intent only on unearthing Republican rascality, yet one of the first persons it indicted was a Democratic State Senator, who was one of the twenty-four Senators who formed a combination to sell their votes to the highest bidder.

It is not pretended that the men who compose the grand jury are not reputable citizens. They do not maliciously stain the fair fame of anybody. They ask witnesses for whatever information they may be able to give to further the cause of justice by exposing scoundrels. No honest man fears them and only hoodlums and their organs attempt to make it appear that they are acting illegally. A California exchange, commenting on that fact, says:

"What are the odds to the people, whether the San Francisco grand jury is legally impaneled or not, so long as it is empowered to dig for facts? It has the power to heat the branding iron and to brand the hoodlums. That is victory enough for one generation. The water is too deep to swap horses now. Let the good work of branding the rascals go on and after the rodeo the people will know their cattle. We can afford to trust to luck for the balance."

CONFLICTING REPORTS FROM RUSSIA.

Reports relative to destitution in Russia are conflicting, one dispatch says the peasants are so reduced by starvation and want in some of the provinces that they are unable to get to the points where the Government is distributing food. In one village no less than forty-two deaths have occurred from starvation and about one thousand persons have died from hunger. The survivors in many instances are too weak to bury the dead and the officials, much against their will, are compelled to perform that duty.

Another report from Russia, says there is positively no prohibition of exports of either wheat or maize. The exports of grain this year equal 80,000 American bushels of wheat and as much more remain for shipment. The Government will not officially deny the rumors of starvation. Odessa merchants, for speculative purposes, circulate the embargo reports while pushing forward wheat exports with the greatest energy. The potato crop for the whole Empire is good and the yield an average.

There is much suffering in places, but it is tenfold magnified by the Rothschilds and others to injure Russian credit.

It is quite probable that the reports of famine in Russia are exaggerated by speculators. The Odessa merchants, doubtless desire to create the impression that there is a great scarcity of grain in the Empire for the purposes of enhancing prices, and brokers magnify the reports of destitution to depreciate the market value of Russian bonds.

THE ELECTIONS YESTERDAY.

The Associated Press dispatches received last night contain more or less complete returns from all the State elections held yesterday.

New York, the Empire State, elected Roswell P. Flower (Democrat), Governor by a majority of from 25,000 to 30,000, though the New York Tribune concedes him only 15,000 majority. Ohio elects Wm. McKinley, Jr., (Republican) by a majority of from 12,000 to 18,000. Russell (Democrat) is elected Governor of Massachusetts, and Brown (Democrat) is elected Governor of Maryland. In Iowa the election of Boies is conceded by a few thousand plurality. In Pennsylvania there are large Democratic gains in several counties, but not enough to overcome the heavy Republican majority in the State.

There are no definite returns from Nebraska, though it is said there was a large falling off in the Alliance votes.

At midnight the Associated Press agent summed up the result as follows: Boies elected in Iowa; Russell in Massachusetts; Flower in New York, and McKinley in Ohio.

Two years ago the iron molders of San Francisco struck for higher wages. The foundry owners refused to grant the advance and the strike was continued ever since until yesterday, when it was declared off by the Union. It was one of the most stubborn contests on record. Two men lost their lives in rows which resulted from the strike and considerable money was expended importing men from the East, who, as a general rule, joined the strikers when they arrived in San Francisco.

News of Importance From Home and Abroad.

NEW YORK ELECTION.

Special to the Journal.

New York, November 3.—The city returns complete, except seventy-six districts, give Flower 44,780 majority. Eighty-one districts in the State give Flower 7,743; Fassett 8,780. The same in 1888 gave Hill 8,328; Miller 11,400. Curtis, Republican, is elected to Congress in the 22nd District of New York.

Roswell P. Flower, Governor-elect of New York.

WATERTOWN, N. Y., November 3.—Watertown, Flower's home, gives Flower 2,029; Fassett 1,586. In 1888 Hill received 1,589 as against Miller's 1,730.

New York, November 3.—10 p. m.—Returns from all parts of the State show Fassett's majority outside of the city and King's county will not exceed 49,271. Flower's majority in the city and King's county will be about 72,000.

Two hundred and one districts in the State give Flower 21,636; Fassett 22,879. Same in '88 gave Hill 22,039; Miller 23,631.

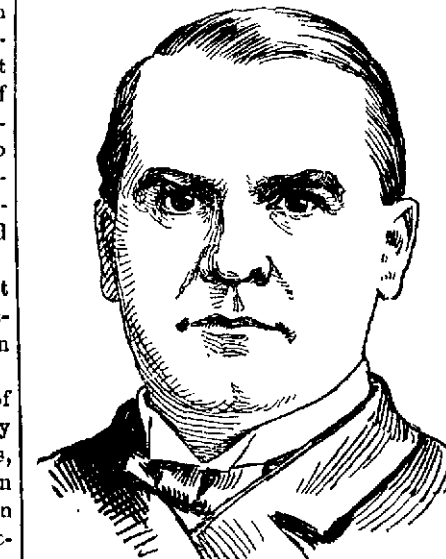

New York, November 3.—Returns indicate the Republicans have gained two in the Senate and four in the Assembly.

OHIO ELECTION.

Special to the Journal.

CINCINNATI, November 3.—Thirty-three precincts outside of the city give McKinley 4,080; Campbell 3,050.

One hundred and eighty-three precincts outside of Cincinnati, McKinley 21,475; Campbell 17,874. Twenty-three precincts in Cincinnati, McKinley, 3,229; Campbell, 3,821.

Major William McKinley, Governor-elect of Ohio.

CLEVELAND, O., November 3.—The Republicans gain twelve in Wellington, thirteen in Garrettsville. The indications are that the Republicans gain representatives in Hancock, Paulding and Haddin counties, all of which returned Democrats two years ago. Oberlin gives a net Republican gain of 70.

CINCINNATI, November 3.—The Lincoln Club of this city estimates McKinley's majority in Hamilton county at 6,590; in the State at 18,000 to 20,000.

COLUMBUS, O., November 3.—12 m.—Campbell concedes McKinley's election by 15,000 majority.

COLORADO ELECTION.

Special to the Journal.

DENVER, November 3.—This election is the most peaceful ever held here. Five tickets are in the field, Democratic, Republican, Prohibition, People's Party and People's Non-Partisan. The first two are polling most of the vote. No slate officers voted for except Chief Justice of the Supreme Court. Reports from various parts of the State indicate that the election has passed off quietly. In many places a mixed ticket is chosen. It will be very late before there are definite returns, however. There is no doubt of the election of Judge Helm (Republican) to the Chief Justiceship.

ILLINOIS ELECTION.

Special to the Journal.

CHICAGO, November 3.—In the city 125 precincts, about a quarter of the total, indicate a Democratic victory in the local election. The figures show the Republican candidates from 1,000 to 1,700 behind their opponents. The fall vote at the last county election gave a Republican victory by a plurality of 897. As on that occasion, the outlying precincts, which are heavily Republican, may again turn the scale against the Democrats.

MASSACHUSETTS' ELECTION.

Special to the Journal.

Boston, November 3.—Fifty towns give Allen 7,841; Russell 5,665; net Republican gain 424.

Boston, November 3.—In this city 181 precincts of 207 give Russell 30,795; Allen 18,814; Russell's plurality, 11,981.

In this city 101 precincts out of 207 give Russell a plurality of 13,237. This is within 111 of his plurality last year in the whole city. Sixty towns give Allen 9,292; Russell, 6,040, a Republican gain of 564.

Boston, November 3.—On account of the new law requiring votes to be counted by two different officials, the returns are coming in slowly. Returns from fifty country towns show a net Republican gain of 708. On this basis the Republicans gain in the State 4,942. Last year Governor Russell's plurality in the State was 9,058. Indications so far from the large cities are that he held the pluralities of last year and is elected by at least 4,000 plurality. The balance of the Republican State ticket is undoubtedly elected.

It is impossible to give the complexion of the Legislature.

IOWA ELECTIONS.

Special to the Journal.

CEDAR RAPIDS, November 3.—Reports from Benton county indicate a Democratic gain of 200 over 1889.

WATERLOO, November 3.—This city, Boies' home, gives Wheeler 1,151; Boies 887. The same precincts in 1889 gave Hutchinson 850; Boies 742.

One hundred and forty-five precincts gave Wheeler 19,970; Boies 18,412; net Republican gain 384.

DES MOINES, November 3.—Democrats claim Governor. Republicans are confident the county townships will elect their man. It is believed the Republican State ticket, aside from Governor, is elected. The Republicans claim the Legislature.

MARYLAND ELECTION.

Special to the Journal.

BALTIMORE, November 3.—Frank Brown, Democratic candidate for Governor, has a majority of 15,000 to 20,000, as figured at Democratic headquarters.

The regular Democrats claim the entire city ticket by an average of 5,000 majority.

PENNSYLVANIA.

Special to the Journal.

PITTSBURGH, November 3.—The Republican and Democratic fusion of the county ticket, has from 12,000 to 15,000 plurality. The plurality for the Republican State ticket is estimated at 9,000.

NEBRASKA

Special to the Journal.

OMAHA, November 3.—The light vote in the State is due partly to the Australian ballot system, which proved cumbersome. A large part of the shrinkage comes from the Farmers' Alliance, which has lost much of its strength.

NEW JERSEY ELECTION.

Special to the Journal.

JERSEY CITY, N. J., November 3.—Hudson county returns show that the Democrats elect a State Senator and carry ten of the eleven Assembly districts and elect all of the county officers.

VIRGINIA ELECTION.

Special to the Journal.

RICHMOND, Va., November 3.—No county heard from shows the election of a Republican or Independent.

The Democrats have elected 11 out of 19 of the State Senators and 70 out of 100 members of the House.

Final Results.

Special to the Journal.

SAN FRANCISCO, November 3.—10 p. m.—Reports from all States in which elections were held appear to give the following results:

New York—Flower (Democrat) wins by 18,000 to 24,000 majority.

Iowa and Massachusetts—Slight Republican gains, but not enough to defeat Boies and Russell.

Ohio—Slight Democratic gains, but not enough to defeat the Republicans.

Pennsylvania—Thirty-five to forty thousand Republican majority.

Nebraska and Kansas—Farmers' Alliance greatly weakened, Republicans win sweeping victories.

Maryland, Virginia and New Jersey—Democrats carry everything.

Chicago—County election Democrats appear to win. Three Republicans elected to Congress in districts previously held by Republicans. Three Democratic districts not yet heard from.

The Philadelphia Gone South.

Special to the Journal.

NEW YORK, November 3.—The Philadelphia, the flagship of the North Atlantic squadron, sailed from the navy yard at Brooklyn this morning on her way to the Barbadoes. Her first stopping place is at the West Indies. There she will be a thousand miles nearer Chili than here.

Lowered His Record.

Special to the Journal.

STOCKTON, November 3.—Palo Alto lowered his record half a second to-day and came within a quarter of a second of Alerton's record for the world. Palo Alto made the first quarter in 32 seconds, the half in 1:04, three quarters in 1:36½.

Death of Louis Lucien Bonaparte.

Special to the Journal.

ROME, November 3.—Louis Lucien Bonaparte, nephew of the first Napoleon, is dead, aged 78 years.

The Itata Case.

Special to the Journal.

LOS ANGELES, November 3.—Judge Ross to-day granted motion of defendants to instruct to return a verdict of not guilty in the case of the United States vs. George Burt and Ricardo Trumbull, who have been on trial here for a week charged with fitting out the steamer Itata with arms to cruise against the Government of Chili. The Court grants the motion on two points. First, that the indictment is defective, being formed under the neutrality laws, in not stating that a state of war existed in Chili, and that the defendants were belligerents and had been recognized as such else the charges would not hold because the statute contemplated a state of war; also that a vessel coming to the United States to get arms and carrying them peaceably away was not fitting out an expedition that had already been set on foot in Chili and was being conducted there, not from the United States. This decision will also result in dismissing the cases against the vessel and her arms.

About three months ago the coal miners at Pittsburg, Pennsylvania, struck for an advance in wages. Yesterday, probably for the purpose of influencing their votes, the operators granted the demands of the strikers, and 12,000 men resume work at an advance of ten cents per ton. The miners gain a point but lose three months' wages.

It has long been the boast of Great Britain that hers is the only realm on which the sun never sets. The boast is a false one, or has been such since the purchase by the United States of Alaska. When it is 6 o'clock p. m., at the westernmost of the Alaskan islands, it is 9:30 A. M. the next day on the eastern boundary of Maine.

The Austin Advocate says a flock of 3,400 sheep has arrived at Smith Creek Valley, Lander county, from California. The sheep were driven across the mountains, and the band was only 85 short on the trip.

The Manufacture of Caps.

In that oddest, nestlike part of New York, the French quarter, 2,000 or 3,000 men and girls make annually \$3,000,000 worth of caps, exclusive of the \$1,000,000 worth made by the furriers of that region. At least 1,000,000 dozen caps are turned out in this quarter every year. As to styles, there are nearly 500 varieties. Of yachting caps alone there are something like two dozen kinds, if, indeed, twoscore is not nearer the correct number.

A few leading styles, however, persist with little or no change from year to year. The west constantly demands a cheap cap with ear coverings. Every year sees some cap for girls the rage. Such caps sell by the hundred thousand dozen. A hint comes from Paris, and in a few weeks the new caps swarm in every street.—New York World.

What He Feared.

"While I was in England," says one woman, "I was told of an American who on his first trip on an English railway quite held his breath at the rapid running. When his nervousness rather overcame him he approached the guard. 'I say, guard,' he ventured, 'this is pretty fast traveling for safety, isn't it?' 'Oh, no, sir,' replied the guard; 'we never run off the line here, sir.' 'But,' said the Yankee quickly, 'representing the patronage, it is not the line. I'm afraid of running off your confounded little island.'"—New York Times.

WHAT IS SCROFULA

It is that impurity in the blood, which, accumulating in the glands of the neck, produces unsightly lumps or swellings; which causes painful running sores on the arms, legs, or feet; which develops ulcers in the eyes, ears, or nose, often causing blindness or deafness; which is the origin of pimples, cancerous growths, or the many other manifestations usually ascribed to "humors;" which, fastening upon the lungs, causes consumption and death. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it.

How Can It Be CURED

By taking Hood's Sarsaparilla, which, by the remarkable cures it has accomplished, often when other medicines have failed, has proven itself to be a potent and peculiar medicine for this disease. Some of these cures are really wonderful. If you suffer from scrofula, be sure to try Hood's Sarsaparilla. "My daughter Mary was afflicted with scrofulous sore neck from the time she was 22 months old till she became six years of age. Lumps formed in her neck, and one of them after growing to the size of a pigeon's egg, became a running sore for over three years. We gave her Hood's Sarsaparilla, when the lump and all indications of scrofula entirely disappeared, and now she seems to be a healthy child." J. S. CARLISLE, Nauright, N. J.

A. L. Seymour, of Long Valley, who says he has been studying weather signs for a quarter of a century, predicts a dry Winter. He says there will be few storms, and none very severe until next February, when there will be a heavy fall of snow. He predicted an open Winter last year and a wet Spring, and his predictions were verified.
The Pioche Record says: The Denver and Rio Grande Western Railroad surveying party leave Eureka, Utah, to survey a direct route to Southern California via Pioche. It is rumored that Kilpatrick Brothers have the contract for the grading as far as Pioche, and the Springville Grading Company the balance. Material is accumulating in and around Salt Lake, and every available space on sidngs is used to store building material.

WHAT IS SAID IN THE CHURCHES.
Interesting Meetings at the Methodist Church.
The services at the M. E. Church were conducted last Sunday as usual by the pastor, Rev. J. A. Bready. Morning theme: "How I Know that I am a Christian." Text: I John 3:14-24, "We know that we have passed from death into life because we love these brethren. He that loveth not his brethren abideth in death. And he that keepeth his commandments dwelleth in him, and he in him, and hereby we know that he abideth in us, by the spirit which he hath given us."
Evening theme: "Profit and Loss." Text: Matthew 16: 25-26, "For whosoever will save his life shall lose it; and whosoever will lose his life for my sake shall find it. For what is a man profited, if he shall gain the whole world and lose his own soul, or what shall a man give in exchange for his soul?"
Both sermons were effective and of such a character as to clear many doubts of Christians as well as those who doubt the saving power of Jesus.
Much interest is manifested in the services. After services have been held after evening services for the past two Sundays, and much revival spirit is taken in the services.
The Epworth League does much to aid the spiritual welfare of the church and is largely attended. The meetings are held every Sunday evening at a quarter of six o'clock. An invitation is always extended.
Skipped by the Light of the Moon.
"Skipped by the Light of the Moon" will be presented at the Opera House on next Monday evening, November 9th, in its new and revised shape, by Fowler and Warrington's company of comedians. No analysis can be given of such a fare. The laughter begins two minutes after the curtain rises, and the authors make it a point that it shall not stop until it falls upon the third and last act. An exchange says: "The largest house of the season—in fact one of the largest audiences that was ever crowded into the theater—witnessed Skipped by the Light of the Moon last night. "Skipped" is a peculiar play, a very, very, very funny play. To attempt to describe it would be like trying to paint the merry jingle of a laugh. Like a basket of good champagne, it can only be appreciated by the sampling process. The audience was convulsed with laughter from beginning to end; people laughed and shouted and pounded the floor, the seats and each other until they were actually ashamed of themselves."
The World Enriched.
The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Spring time or, in fact, at any time and the better it is known the more popular it becomes.
Depot Restaurant.

The readers of the JOURNAL will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Free Water.
Parties in Reno having good wells or a place for one are throwing away money in paying water rates, when by a small investment plenty of pure water is at their command free of cost. One good well will supply water for several families, who by joining in the expense of erecting a windmill, tank, etc., can not only effect a saving in expenses, but be independent of a monopolizing water service. A visit to the Water Company's reservoir and ditch at times will convince the most skeptical that well water is the doctor's enemy, while surface water is the direct agent in bringing business to his office.
Constant pumping insures pure water from all good wells, hence the quality of well water cannot be judged properly from only occasional pumpings. Many unused wells would furnish plenty of pure, clear water if properly pumped.
Can you afford a pumping plant of your own? We will answer for you, Yes.
We are prepared to take contracts this Winter to erect any sized windmill plant required, with proper tank and service connection, furnishing them on a monthly installment plan, warranting all work and taking proper care of all mills so erected.
Plans and specifications free upon application. anti-freezing pumps and protected pipes insure equally as good Winter service as in Summer. For further particulars call on

Can't Cook as Mother Did!
How many a young wife's heart has been saddened
by hearing the above remark! And yet how often the
words are true; especially when cake, pastry or biscuit are
in question! The reason is plain, yet it is "like telling a
secret."
Our mothers used and are using Dr. Price's Cream
Baking Powder. They cannot be misled into using any
of the ammonia or alum powders. No dyspepsia no sallow
complexions, when mother did the cooking.
The first symptoms of ammonia poisoning, says a
New York paper, which appear among those who work in
ammonia factories, is a discoloration of the nose and fore-
head. This gradually extends over the face until the com-
plexion has a stained, blotched and unsightly appearance
Dr. Price's Cream Baking Powder is the only pure
cream of tartar powder that contains the whites of eggs.
Dr. Price's Cream Baking Powder is re-
ported by all authorities as free from Ammonia,
Alum, or any other adulterant. In fact the
purity of this ideal powder has never been ques-
tioned.

DON'T BE CARELESS ABOUT YOUR COMPLEXION
It is woman's chiefest physical charm. It is
often her only capital. It is always worth a great
deal to her, in business, love or social affairs. No
matter how browned, or rough or sallow your
skin may be, or how much it is disfigured with
freckles, moth patches, black heads or pimples,
Mrs. Graham's
FACE BLEACH
Will remove every blemish and leave your skin as
pure and clear and white as it was in baby days.
Your complexion will then be as nature made it.
Instructions go with each bottle how to keep it so.
Price \$1.50. All druggists sell it. For sale in
Reno by
WILLIAM PINNIGER, DRUGGIST.
